 ZuWallack, Richard, 844, 1743

# SUBJECT INDEX

## Volume 124 (JULY–DECEMBER, 2003)

- Abdominal pain, unusual case of travel sickness, 1594  
Ablation: See Argon plasma ablation  
Abnormalities: See also Genetics; 24-hour BP in children with congenital central hypoventilation syndrome, 1393  
clinical spectrum of mediastinal cysts, 125  
pulmonary resection in infants for congenital pulmonary malformation, 98  
refractory wheezing: an unusual presentation of isolated unilateral pulmonary artery agenesis (abstract), Oct. Supp., 307S  
ventilatory and cardiovascular responses to exercise in patients with pectus excavatum, 870  
Access to care: See Health care access  
ACCP-SEEK board review question of the month, a 42-year-old policeman with rash and abnormal chest radiograph, 2014  
respiratory distress in a woman who began complaining of dyspnea and cough 5 months ago, 2388  
sore throat, dysphagia, stiffness in back of neck, and dyspnea following tricyclic antidepressant overdose, 1533  
ACE inhibitors: See Angiotensin-converting enzyme inhibitors  
Acid-base imbalance: See pH  
Acid-fast bacilli, etanercept or mycobacterium lung injury? 1174  
Acidosis, thoracic compartment syndrome secondary to a thoracic procedure: a case report, 1164  
Acquired immunodeficiency syndrome: See also HIV infections; *Pneumocystis carinii* pneumonia: the time course of clinical and radiographic improvement, 1820  
risk factors affecting the survival of patients with pericardial effusion submitted to subxiphoid pericardiostomy, 242  
what is sarcoidosis? 367; erratum, 1181  
ACTH, cyclic Cushing syndrome caused by periodic secretion of (abstract), Oct. Supp., 304S  
Actinomycosis, CHEST 2003 (abstracts), Oct. Supp., 270S, 271S  
a 42-year-old policeman with rash and abnormal chest radiograph, 2014  
Activity, physical: See Exercise  
Acute lung injury: See Lung injury  
Adenomatoid malformation, congenital cystic: See Cystic adenomatoid malformation, congenital  
Adenopathy: See Lymphadenopathy  
Adenosine deaminase, activity, combined use of the polymerase chain reaction and detection of, on pleural fluid improves the rate of diagnosis of pleural tuberculosis, 909  
etiology and pleural fluid characteristics of large and massive effusions, 978  
Adenosine monophosphate, catastrophic cardiovascular adverse reactions to protamine, 411  
5'-monophosphate, airway responsiveness to, and exhaled nitric oxide measurements: predictive value as markers for reducing the dose of inhaled corticosteroids in asthmatic subjects, 1325  
Adenotonsillectomy, sleep characteristics following, in children with obstructive sleep apnea syndrome, 948  
Adhesion molecules: See also Vascular cell adhesion molecule-1; tissue factor, thrombin, and cancer, Sept. Supp., 58S  
Admissions: See Hospitalization  
Adolescents, bronchial hyperresponsiveness in, with long-term asthma remission: importance of a family history of bronchial hyperresponsiveness, 819  
prevalence and correlates of habitual snoring in high school students, 1709  
Adrenal function, adverse effects, long-term, lack of, from inhaled triamcinolone: Lung Health Study II, 57  
Adrenergic β-agonists, cardiovascular collapse in a 77-year-old woman with an asthma exacerbation following bronchodilator treatment, 1160  
COPD treatment: CHEST 2003 (abstracts), Oct. Supp., 127S-129S  
evaluation of nebulized levalbuterol in stable COPD, 844  
Adrenergic β<sub>2</sub>-agonists, efficacy and safety of fluticasone propionate (250 µg)/salmeterol (50 µg) combined in the Diskus inhaler for the treatment of COPD, 834  
serious asthma exacerbations in asthmatics treated with high-dose formoterol, 70  
Adrenergic β-blockers, evaluation and management of a patient with congestive heart failure, 728  
β-blockers with vasodilatory actions, 1621  
new method using pulmonary gas-exchange kinetics to evaluate efficacy of β-blocking agents in patients with dilated cardiomyopathy, 954  
Adult-onset asthma, comparison of the clinical characteristics of children and adults with severe asthma, 1318  
Adverse reactions: See Drug reactions  
Aerobic performance, peak, longitudinal determinants of, in children with cystic fibrosis, 2215  
Aeromedical transport: See Aviation  
Aerosols: See also Beclomethasone; Corticosteroids; Fluticasone; Iloprost; Levalbuterol; Tobramycin; effect of inhaled N<sup>G</sup>-nitro-L-arginine methyl ester on Candida-induced acute lung injury, 2293  
Aerotrap, 1294  
African-Americans, acute asthma among adults presenting to the emergency department: the role of race/ethnicity and socioeconomic status, 803  
clinical risk factors for primary graft failure following lung transplantation, 1232  
predicting mortality in patients with sarcoidosis awaiting lung transplantation, 922  
primary graft failure: who is at risk? 1190  
Age and aging, ARDS and, 426  
asthma and influenza vaccination, 783  
cardiac rupture complicating acute myocardial infarction in the direct percutaneous coronary intervention reperfusion era, 565  
clinical risk factors for primary graft failure following lung transplantation, 1232  
cumulative effects of mechanical ventilation and, on *in vitro* diaphragm function, 2302  
effect of, on the development of ARDS in trauma patients, 653  
endovascular stent grafting of descending thoracic aortic aneurysms, 714  
impaired efficacy of cough in patients with Parkinson disease, 1009  
lipomatous hypertrophy of the interatrial septum, 2068  
mortality and mortality-related factors after hospitalization for acute exacerbation of COPD, 459  
posttransplant lymphoproliferative disorder in lung transplant recipients, 1242  
prevalence of symptoms and risk of sleep apnea in primary care, 1406  
primary graft failure: who is at risk? 1190  
-related trends in mortality from COPD in Lithuania, 1989 to 1998, 90  
relationship between congestive heart failure, sleep apnea, and mortality in older men, 1400  
risk of pulmonary arterial hypertension in scleroderma, 2098  
sex differences in use of coronary revascularization in elderly patients after acute myocardial infarction: a tale of two therapies, 2079  
spirometric reference values for the 6-second FVC maneuver, 1805  
underrecognition of preexisting cognitive impairment by physicians in older ICU patients, 2267  
Agriculture, inhalation challenge with bovine dander allergens: who needs it? 383  
AIDS: See Acquired immunodeficiency syndrome  
Air ambulances: See Aviation

- Air, long-term intermittent exposure to high ambient CO<sub>2</sub> causes respiratory disturbances during sleep in submariners, 1716
- Air flow obstruction: See Airway obstruction
- Airway: See also Airway hyperresponsiveness; Airway inflammation; Airway obstruction, *below*; bronchial hyperresponsiveness in adolescents with long-term asthma remission: importance of a family history of bronchial hyperresponsiveness, 819
- central obstruction, use of an ultrathin bronchoscope in the assessment of, 735
- cephalometric analysis in obese and nonobese patients with obstructive sleep apnea syndrome, 212
- CHEST 2003 (abstracts), Oct. Supp., 261S-265S
- clearance; bronchoscopy for atelectasis in the ICU: a case report and review of the literature, 344
- comparison of three methods for differential cell count in induced sputum, 1060
- defenses and infections; CHEST 2003 (abstracts), Oct. Supp., 134S-136S
- development of respiratory syncytial virus "bronchiolitis" in guinea pigs does not reflect an allergic predisposition in the host, 671
- exhaled nitric oxide as a predictor of exercise-induced bronchoconstriction, 639
- extrathoracic obstruction and hypoxemia occurring during exercise in a competitive female cyclist, 1602
- high expression of p40<sup>αα</sup> and pro-inflammatory cytokines and chemokines in the lungs of human T-lymphotropic virus type-1-related bronchopulmonary disorders, 2283
- hyperosmolar solutions stimulate mucus secretion in the ferret trachea, 306
- measurements of HIV viral loads from different levels of respiratory tract, 536
- nose and sleep-disordered breathing: what we know and what we do not know [includes upper airway resistance syndrome], 2309
- peak physiologic responses to arm and leg ergometry in male and female patients with airflow obstruction, 511
- potential for bronchoscopic lung volume reduction using bronchial prostheses: a pilot study, 1073
- pressure; prone positioning of pediatric patients with ARDS results in improvement in oxygenation if maintained > 12 h daily, 269
- pressure; thoracic compartment syndrome secondary to a thoracic procedure: a case report, 1164
- remodeling, histopathology of severe childhood asthma: a case series, 32
- resistance; pulse transit time as a measure of inspiratory effort in children, 1487
- smooth-muscle relaxation, nitric oxide and vasoactive intestinal peptide as co-transmitters of: analysis in neuronal nitric oxide synthase knockout mice, 1067
- sputum peroxynitrite inhibitory activity is stimulating, 1630
- stents, self-expandable metallic, and flexible bronchoscopy: long-term outcomes analysis, 1993
- tissue mast cells in persistent asthma: predictor of treatment failure when patients discontinue inhaled corticosteroids, 42
- upper; CHEST 2003 (abstracts), Oct. Supp., 307S-310S
- Airway hyperresponsiveness, cardiac arrhythmia monitoring during bronchial provocation test with methacholine, 813
- diagnostic value of negative expiratory pressure for, 1762
- measurement characteristics of peak expiratory flow, 501
- reactivity and sensitivity to methacholine, ratio between forced expiratory flow between 25% and 75% of vital capacity and FVC is determinant of, 63
- reactivity, effect of smoking intervention and an inhaled bronchodilator on, in COPD: the Lung Health Study, 449
- responsiveness to adenosine 5'-monophosphate and exhaled nitric oxide measurements: predictive value as markers for reducing the dose of inhaled corticosteroids in asthmatic subjects, 1325
- responsiveness to three bronchial provocation tests in patients with asthma, 2171
- Airway inflammation, COPD and hepatitis C, 2035, 2036
- effect of montelukast on exhaled nitric oxide and nonvolatile markers of, in mild asthma, 1334
- histopathology of severe childhood asthma: a case series, 32
- oxidative stress in expired breath condensate of patients with COPD, 1373
- reappraisal for nasal saline in chronic sinusitis, 2036, 2037
- sedation of asthma severity categorization, 2054
- Airway obstruction: See also Pulmonary diseases, chronic obstructive; acute applications of noninvasive positive pressure ventilation, 699
- marked upregulation of T-lymphocytes and expression of interleukin-9 in bronchial biopsies from patients with chronic bronchitis with, 1909
- nonmalignant, high dose rate brachytherapy for: new treatment option, 1605
- orthopnea and tidal expiratory flow limitation in patients with euthyroid goiter, 133
- severity of, peripheral muscle dysfunction in patients with COPD: comparing apples to apples? 1
- Albuterol, levalbuterol is not more cost-effective than, for COPD, 1176
- racemic, levalbuterol vs: science or drug company propaganda? 1175, 1176
- Alcohol, age and ARDS, 426
- Alcoholism, clinical feasibility of non-contrast-enhanced magnetic resonance lymphography of the thoracic duct, 2136
- Alkalosis, metabolic, contributes to acute hypercapnic respiratory failure in adult cystic fibrosis, 490
- All-trans retinoic acid modulates the balance of matrix metalloproteinase-9 and tissue inhibitor of metalloproteinase-1 in patients with emphysema, 1724
- Allergic bronchopulmonary mycosis: See Mycosis
- Allergists, classifying asthma: disagreement among specialists, 2156
- Allergy: See Hypersensitivity
- Allogeneic bone marrow transplantation: See Bone marrow transplantation
- α<sub>1</sub>-antitrypsin: See Antitrypsin
- α<sub>1</sub>-proteinase inhibitor therapy: See Proteinases
- Altitude, high; air medical transport of cardiac patients, 1937
- high-altitude pulmonary edema, 1620
- Alveolar-capillary membrane dysfunction in heart failure: evidence of a pathophysiological role, 1090
- Alveoli: See also Macrophages; diffuse hemorrhage after allogeneic hematopoietic stem cell transplantation: treatment with recombinant factor VIIa, 2400
- diffuse hemorrhage following allogeneic bone marrow transplantation in children, 660
- hemorrhage; a 74-year-old man with bilateral pulmonary opacities and rapidly progressive renal failure, 2384
- low hospital mortality in patients with acute interstitial pneumonia, 554
- measurements of HIV viral loads from different levels of the respiratory tract, 536
- volume: advantages of the intrabreath technique as a measure of lung function before and after heart transplantation, 1658
- Alveolitis, serum soluble interleukin-2 receptor measurement in patients with sarcoidosis: a clinical evaluation, 186
- Ambulances, hearts in the air: the role of aeromedical transport, 1635
- Ambulatory care, can universal access to health care eliminate health inequities between children of poor and nonpoor families? a case study of childhood asthma in Alberta, 51
- major components of the direct medical costs of α<sub>1</sub>-antitrypsin deficiency, 826
- American Academy of Allergy, Asthma, and Immunology, systematic review of the evidence regarding potential complications of inhaled corticosteroid use in asthma, 2329
- American Academy of Sleep Medicine, home diagnosis of sleep apnea: a systematic review of the literature, 1543
- American Association for Respiratory Care, practice variation in respiratory therapy documentation during mechanical ventilation, 2275
- American College of Allergy, Asthma, and Immunology, systematic review of the evidence regarding potential complications of inhaled corticosteroid use in asthma, 2329
- American College of Chest Physicians, caloric intake in medical ICU patients: consistency of care with guidelines and relationship to clinical outcomes, 297

- CHEST 2003 (abstracts), Oct. Supp., 69S-345S
- home diagnosis of sleep apnea: a systematic review of the literature; an evidence review cosponsored by the American Academy of Sleep Medicine, the American Thoracic Society, and, 1543
- systematic review of the evidence regarding potential complications of inhaled corticosteroid use in asthma: collaboration of American Academy of Allergy, Asthma, and Immunology, American College of Allergy, Asthma, and Immunology, and, 2329
- American Indians: See Indians, American
- American Thoracic Society, home diagnosis of sleep apnea: a systematic review of the literature, 1543
- Amoxiclav, IV/po co-amoxiclav, economic evaluation of sequential IV/po moxifloxacin therapy compared to, with or without clarithromycin in the treatment of community-acquired pneumonia, 526
- Amyloidosis, primary systemic, persistent pleural effusions in: etiology and prognosis, 969
- pulmonary: CHEST 2003 (abstracts), Oct. Supp., 280S
- Anabolic/catabolic balance: See Catabolic/anabolic balance
- Anabolic steroids, role for, in the rehabilitation of patients with chronic obstructive pulmonary disease, 1733
- Anaerobic threshold, new method using pulmonary gas-exchange kinetics to evaluate efficacy of  $\beta$ -blocking agents in patients with dilated cardiomyopathy, 954
- utility of the breathing reserve index at, in determining ventilatory-limited exercise in adult cystic fibrosis patients, 1469
- Analgesia: See Pain
- Anasarca peripheral edema: See Heart
- Anemia, patient with a paraspinal chest mass and, 732
- pernicious, pulmonary embolism in hyperhomocysteinemias and, 1181
- Aneurysms, ascending aortic and dissections, long-term results of Bentall composite aortic root replacement for, 984
- descending aortic, formation, risk factors for, in medium-term follow-up of patients with type A aortic dissection, 989
- descending thoracic aortic, endovascular stent grafting of, 714
- mycotic pulmonary artery, presenting as a endobronchial mass, 1610
- Angina-free and hemodynamically stable patients, safety of nitrate withdrawal in, with coronary artery disease, 1652
- variant [coronary spastic], did the widespread use of long-acting calcium antagonists decrease the occurrence of? 2074
- Angiogenesis, pulmonary capillary hemangiomatosis with atypical endotheliomatosis: successful antiangiogenic therapy with doxycycline, 2017
- tissue factor, thrombin, and cancer, Sept. Supp., 58S
- tumor necrosis correlates with, and is a predictor of poor prognosis in malignant mesothelioma, 1916
- Angiography, evaluation and management of a patient with congestive heart failure [coronary cineangiography], 728
- gadolinium-enhanced magnetic resonance, for detection of acute pulmonary embolism: an in-depth review, 2324
- impact of tirofiban on angiographic morphologic features of high-burden thrombus formation during direct percutaneous coronary intervention and short-term outcomes, 962
- relative coronary flow velocity reserve improves correlation with stress myocardial perfusion imaging in assessment of coronary artery stenoses, 1266
- Angioplasty, intracoronary  $\beta$ -irradiation with liquid rhenium-188, 1284
- Angiosarcoma, primary pulmonary, successful treatment of, 2397
- Angiotensin-converting enzyme inhibitors, aspiration pneumonia and dysphagia in the elderly, 328
- aspirin does not adversely affect survival in patients with stable congestive heart failure treated with, 1250
- evaluation and management of a patient with congestive heart failure, 728
- impaired efficacy of cough in patients with Parkinson disease, 1009
- interaction of, and aspirin in congestive heart failure: long controversy finally resolved? 1192
- Animal research: See Laboratory and animal research
- Anoxemia, acute applications of noninvasive positive pressure ventilation, 699
- extrathoracic obstruction and hypoxemia occurring during exercise in a competitive female cyclist, 1602
- nocturnal oxygen desaturation correlates with the severity of coronary atherosclerosis in coronary artery disease, 936
- suboptimal erythropoietic response to hypoxemia in idiopathic pulmonary fibrosis, 548
- Anoxia, air medical transport of cardiac patients, 1937
- Anthropometry, cephalometric analysis in obese and nonobese patients with obstructive sleep apnea syndrome, 212
- Antiangiogenic therapy, successful, with doxycycline: pulmonary capillary hemangiomatosis with atypical endotheliomatosis, 2017
- Antibiotics, decreasing  $\beta$ -lactam resistance in pneumococci from the Memphis region, 519
- early administration of, does not shorten time to clinical stability in patients with moderate-to-severe community-acquired pneumonia, 1798
- factors influencing physician decision making for macrolide prescriptions: CHEST 2003 (abstracts), Oct. Supp., 336S
- impact of positive microbiological diagnosis on management and prognosis of severe community-acquired pneumonia, 1179
- impregnated catheters associated with significant decrease in nosocomial and multidrug-resistant bacteremias in critically ill patients, 1030
- macrolide, 519, 1482, Oct. Supp., 336S
- new choices for central venous catheters: potential financial implications, 275
- reappraisal for nasal saline in chronic sinusitis, 2036, 2037
- resistance, encouraging news from the front, 423
- top ten list in ventilator-associated pneumonia, 1580
- Anticoagulants, clot burden and comorbidity in natural history of untreated pulmonary thromboembolism, 1178
- contemporary issues in deep vein thrombosis prophylaxis: a review of old, new and innovative agents, Dec. Supp., 347S-393S
- controversies in timing of the first dose of prophylaxis against venous thromboembolism after major orthopedic surgery, Dec. Supp., 379S
- drug therapy for pulmonary arterial hypertension: what's on the menu today? 2045
- evaluation and management of a patient with congestive heart failure, 728
- increase in thrombomodulin concentrations after pulmonary thromboendarterectomy in chronic thromboembolic pulmonary hypertension, 1305
- temporal trends in prevention of venous thromboembolism following primary total hip or knee arthroplasty 1996–2001: findings from the hip and knee registry, Dec. Supp., 349S
- thrombin interactions, Sept. Supp., 11S
- Antidepressants, tricyclic, overdose, sore throat, dysphagia, stiffness in back of neck, and dyspnea following, 1533
- Antifungal therapy, pulmonary cryptococcosis in non-immunocompromised patients, 2143
- Antigens: See also HLA; restoration of antigen-specific CD4 T-cell response against *Mycobacterium tuberculosis* in HIV-infected people, 412
- Antihypertensive agents,  $\beta$ -blockers with vasodilatory actions, 1621
- Antioxidants, effect of inhaled beclomethasone dipropionate on peroxynitrite inhibitory activity in induced sputum from asthmatic patients, 1755
- Antipsychotic drugs, fever, consciousness disturbance, and muscle rigidity in a 68-year-old man with depressive disorder, 1598
- Antiretroviral therapy, measurements of HIV viral loads from different levels of the respiratory tract, 536
- Antithrombotic therapy: See Thromboembolism; Thrombosis
- Antitrypsin,  $\alpha_1$ -, deficiency, emphysema due to: familial study of the BARCELONA variant, 404
- deficiency, major components of the direct medical costs of, 826
- SZ  $\alpha_1$ -, disease, and lymphangioleiomyomatosis: a unique combination? 763
- Anti-tumor necrosis factor- $\alpha$  therapy: See Tumor necrosis factor- $\alpha$
- Anxiety, psychiatric disorder and quality of life in patients awaiting lung transplantation, 1682

- Aorta, diagnostic usefulness of carotid pulse tracing in patients with hypertrophic obstructive cardiomyopathy due to midventricular obstruction: a comparison with idiopathic hypertrophic subaortic stenosis, 1275
- endovascular stent grafting of descending thoracic aortic aneurysms, 714
- overview of transesophageal echocardiography for the chest physician, 1081
- risk factors for descending aortic aneurysm formation in medium-term follow-up of patients with type A aortic dissection, 989
- stenosis, assessment of severity of, through time frequency analysis of murmur, 1638
- Aortic root replacement, Bentall composite, long-term results of, for ascending aortic aneurysms and dissections, 984
- APACHE, risk assessment for inpatient survival in the long-term acute care setting after prolonged critical illness, 1039
- Apnea: See Sleep apnea. Sleep apnea syndromes, obstructive
- Apnea-hypopnea index, cephalometric analysis in obese and nonobese patients with obstructive sleep apnea syndrome, 212
- esophageal foreign bodies causing obstructive sleep apnea in a patient with Sturge-Weber syndrome, 400
- home diagnosis of sleep apnea: a systematic review of the literature, 1543
- measuring agreement between diagnostic devices, 1535
- prediction of, from overnight pulse oximetry, 1694
- sleep-disordered breathing: a heart-changing experience? 778
- Apoptosis, statins, inflammation, and sepsis: hypothesis, 740
- ARDS: See Respiratory distress syndrome, adult
- Arginine, effect of inhaled N<sup>G</sup>-nitro-L-arginine methyl ester on Candida-induced acute lung injury, 2293
- catastrophic cardiovascular adverse reactions to protamine, 411
- Argon plasma ablation, interventional pulmonology: CHEST 2003 (abstracts), Oct. Supp., 289S
- Armed forces, long-term intermittent exposure to high ambient CO<sub>2</sub> causes respiratory disturbances during sleep in submariners, 1716
- Arms, ergometry, peak physiologic responses to leg ergometry and, in male and female patients with airflow obstruction, 511
- muscle strength and exercise kinetics in COPD patients with a normal fat-free mass index are comparable to control subjects, 75
- Arousal, plasma orexin-A levels in obstructive sleep apnea-hypopnea syndrome, 1381
- Arrhythmias, cardiac, monitoring during bronchial provocation test with methacholine, 813
- lipomatous hypertrophy of the interatrial septum, 2068
- Arterial oxygenation: See Oxygen; Oxygenation
- Arterial pressure: See Blood pressure
- Arteries, hard rock: a case of a postoperative complication; CHEST 2003 (abstracts), Oct. Supp., 304S
- Arthritis, rheumatoid, effects of tumor necrosis factor- $\alpha$  inhibitors on lung lesions with, 413, 414
- rheumatoid, longitudinal study of lung function on nonsmoking patients with, 1224
- Arthroplasty, primary total hip or knee, temporal trends in prevention of venous thromboembolism following, 1996–2001: findings from the hip and knee registry, Dec. Supp., 349S
- Artificial respiration: See Respiration, artificial
- Asbestosis, clinical diagnosis of, in this century requires more than a chest radiograph, 1120
- Aspergillosis, allergic bronchopulmonary, mild, moderate, and severe forms of, 890
- Aspergillus fumigatus*, suberosis, 1145
- Aspiration biopsy: See Biopsy
- Aspiration pneumonia: See Pneumonia, aspiration
- Aspirin [angiotensin-converting enzyme inhibitors in congestive heart failure and], 1192, 1250
- Asthma: See also Pulmonary diseases, chronic obstructive; acute, among adults presenting to the emergency department: the role of race/ethnicity and socioeconomic status, 803
- acute applications of noninvasive positive pressure ventilation, 699
- acute, effects of short-term 28% and 100% oxygen on PaCO<sub>2</sub> and peak expiratory flow rate in: a randomized trial, 1312
- acute, randomized controlled trial of inhaled flunisolide in the management of, in children, 790
- airway responsiveness to adenosine 5'-monophosphate and exhaled nitric oxide measurements: predictive value as markers for reducing the dose of inhaled corticosteroids in asthmatic subjects, 1325
- CHEST 2003 (abstracts), Oct. Supp., 93S–95S, 136S–142S
- childhood, in Alberta: can universal access to health care eliminate health inequities between children of poor and nonpoor families? a case study of, 51
- childhood, increased exhaled 8-isoprostone in, 25
- childhood, severe, histopathology of: a case series, 32
- cigarette smoking, emphysema, and, 2408
- classifying: disagreement among specialists, 2156
- comparison of three methods for differential cell count in induced sputum, 1060
- corticosteroid therapy; CHEST 2003 (abstracts), Oct. Supp., 86S–88S
- dosing inhaled steroids in: is once-a-day administration effective? 1196
- effect of inhaled beclomethasone dipropionate on peroxynitrite inhibitory activity in induced sputum from asthmatic patients, 1755
- effectiveness of low-dose theophylline as add-on therapy in the treatment of: the LODO trial (abstract), Oct. Supp., 335S
- emergency department care, trends in, in metropolitan Chicago, 1774
- evidence for the transmissibility of atopy: a hypothesis, 1968
- exacerbation, cardiovascular collapse in a 77-year-old woman with, following bronchodilator treatment, 1160
- exhaled nitric oxide as a predictor of exercise-induced bronchoconstriction, 639
- influenza vaccination and, 775, 783
- inhaled fluticasone propionate by Diskus in the treatment of: a comparison of the efficacy of the same nominal dose given either once or twice a day, 1584
- lack of long-term adverse adrenal effects from inhaled triamcinolone: Lung Health Study II, 57
- leisure-time physical activity among US adults with, 432
- levabutler vs racemic albuterol: science or drug company propaganda? 1175, 1176
- long-term remission, bronchial hyperresponsiveness in adolescents with importance of a family history of bronchial hyperresponsiveness, 819
- measurement characteristics of peak expiratory flow, 501
- mild and moderate nocturnal, high dose of inhaled fluticasone reduces high levels of urinary leukotriene E<sub>4</sub> in the early morning in, 1768
- mild, effect of montelukast on exhaled nitric oxide and nonvolatile markers of inflammation in, 1334
- mild, moderate, and severe forms of allergic bronchopulmonary aspergillosis, 890
- occupational, outcome of, in patients with continuous exposure: a 3-year longitudinal study during pharmacologic treatment, 2372
- occupational: inhalation challenge with bovine dander allergens: who needs it? 383
- optimal cutoff level of breath carbon monoxide for assessing smoking status in patients with COPD and, 1749
- overall contribution of chest wall hyperinflation to breathlessness in, 2164
- pediatric chest diseases: CHEST 2003 (abstracts), Oct. Supp., 69S–73S
- persistent, airway tissue mast cells in: predictor of treatment failure when patients discontinue inhaled corticosteroids, 42
- physical activity and, 421
- physician-diagnosed, stabilization of an increasing trend in prevalence in Saskatchewan, 1991 to 1998, 438
- profile of near-fatal, in an inner-city hospital, 1880
- proportional Venn diagram of obstructive lung disease: two approximations from the United States and the United Kingdom, 474
- ratio between forced expiratory flow between 25% and 75% of vital capacity and FVC is a determinant of airway reactivity and sensitivity to methacholine, 63

- reappraisal for nasal saline in chronic sinusitis, 2036, 2037
- responsiveness to three bronchial provocation tests in patients with, 2171
- salmeterol multicenter research trial (SMART): results from an interim analysis; CHEST 2003 (abstracts), Oct. Supp., 335S
- sensitivity and validity of three bronchial provocation tests to demonstrate the effect of inhaled corticosteroids in, 1341
- serious exacerbations in asthmatics treated with high-dose formoterol, 70
- severe, comparison of the clinical characteristics of children and adults with, 1318
- severe pediatric, flexible fiberoptic bronchoscopy in; CHEST 2003 (abstracts), Oct. Supp., 129S
- severity, body mass and, among adults presenting to the emergency department, 795
- severity categorization, sedation of, 2054
- severity, causative and contributive factors to, and patterns of medication use in patients seeking specialized asthma care, 1781
- snoring in preschool children: prevalence and association with nocturnal cough, 587
- sputum peroxynitrite inhibitory activity is stimulating, 1630
- systematic review of the evidence regarding potential complications of inhaled corticosteroid use in: collaboration of American College of Chest Physicians, American Academy of Allergy, Asthma, and Immunology, and American College of Allergy, Asthma, and Immunology, 2329
- therapeutic innovations; CHEST 2003 (abstracts), Oct. Supp., 105S-107S
- wheezy bronchitis in childhood: a distinct clinical entity with lifelong significance? 18
- Atelectasis, bronchoscopy for, in the ICU: a case report and review of the literature, 344
- pulmonary resection in infants for congenital pulmonary malformation, 98
- Atherosclerosis, coronary, nocturnal oxygen desaturation correlates with the severity of, in coronary artery disease, 936
- sleep-disordered breathing: a heart-changing experience? 778
